Developer Extension Agreement	\$7,000.00

NOTES TO RATES

- Rates are bi-monthly. Water bills are issued every two months.
- Water meters are read every other month, so usage over included amounts is based on two months (1,200 ft³).
- A "billing cycle" is two months. Billing cycles start when bills are generated and end when the next cycle's bills are generated.
- The property owner is responsible for all water that passes through the service meter.

NOTE TO FEES

- Late fees are calculated at the end of each billing cycle.
- Payments are deemed received based on the office time stamp.
- Payments are late when received after 3:00 PM on the due date.

NOTES TO CHARGES

- ERU = Equivalent Residential Unit.
- Meter/Service Removal is the only way to cease water bills. It involves complete removal of the connection. Should water service be desired for the property at some time in the future, a new service lateral (if required), meter setter, meter and meter box will be installed at property owner's expense. A meter deposit will be required.
- "District Costs" means all costs to the District incurred accomplishing the activity.
- Applications for Determination of Water Adequacy are valid for one year.

NOTES TO DEPOSITS

- District costs will be subtracted from deposits.
- Any remaining money will be refunded to the original applicant.
- Additional deposit may be required if costs exceed initial deposit.

Grays Harbor County Water District #2 is an equal opportunity provider and employer and does not discriminate on the basis of race, color, national origin, age, disability, sex, gender identity, or religion.
